“Co-Education in Green” breaking the finish line!

Since our last communication, the [Co-Education in Green](#) partnership had had their final transnational meeting in Patras, Greece, hosted by [p-consulting.gr](#), where fine tuning of the [project's outputs](#) was completed. They also held their Multiplier Events and one-day events in their countries to further publicize their work!

Co-Education in Green Final Transnational Meeting in Patras, Greece

Due to COVID-19 pandemic, face-to-face transnational partners' meetings, all so necessary for the organization and the development of activities in progress, were very hard to hold since travelling had been restricted. But we are happy to report that our **final transnational partners meeting** took place on **13th and 14th of October**, in Patras, Greece, and we all managed to be there!

Representatives from the corresponding partners' organizations gathered, and we had a fruitful and productive final meeting, in a warmhearted and cheerful context, since completion of the activities have reached the finish line in the best way!

The meeting's agenda included all remaining steps and activities, just prior to the finalization of project's targets and outputs, and all last aspects that will be assisting to their fine tuning. Thus, it was thoroughly discussed how the [Interactive Database](#), the [Online Training Kit](#), and the [Manual on how to create multisensory gardens](#) will reach direct and indirect target groups and stakeholders, and will be **delivered across Europe, for all to benefit the most of them!**

Co-Education in Green Multiplier Event in Greece

Co-Education in Green project partner [p-consulting.gr](https://www.pconsulting.gr) organised and implemented their Multiplier Event, under the topic **“Green in the city”**, that took place in Patras on 13.10.2022, and attracted various stakeholders such as municipal authorities, regional authorities, technical chamber representatives, associations of people with disabilities, NGO's, public and private educational institutions, representatives of local communities, active citizens, etc.

Co-Education in Green Multiplier Event in Spain

Co-Education in Green project partners [Open Europe](https://open-europe.eu) and [Taller Baix Camp](https://tallerbaixcamp.com) co-organized and implemented their Multiplier Events, that took place in Reus on 18.10.2022 and 28.10.2022, respectively, at their organizations' premises and at Taller Baix Camp's beautiful multisensory garden.

During the event at the Taller Baix Camp, it was presented the project, its activities, and main results; the participants of the event were able to test and enjoy different areas of the garden and take part in activities to get a better idea of the purpose of a sensory garden. During the multiplier event organized at the premises of Open Europe, the focus was on a debate about the positive outcomes of the project and how stakeholders can benefit from the results achieved. Both events were a success and attracted many people.

Co-Education in Green Multiplier Event in Italy

Co-Education in Green project partner **Polygonal** organised and implemented their Multiplier Event, that took place in Cori, Italy on 21.10.2022, and attracted various stakeholders such as municipal authorities, associations, NGO's, educational institutions, representatives of local communities, active citizens, etc.

Co-Education in Green Outputs

The project's partnership has finalized all outputs that has set out to implement and they are freely available online through the project's [website](#). A short overview of the outputs follows:

▪ [Interactive Database & Methodology](#)

This digital tool provides best practices and information on how to transform shared spaces into green environmentally friendly areas and offers insights to all interested parties and individuals!

Information included in the Database can be used by adult educators, educational centres, and the educational community, and all those giving emphasis on environmental, societal, sustainable and inclusiveness issues. It is available in English, Greek, Italian, Lithuanian, Portuguese, and Spanish. You can navigate to the Database by selecting one of the following sections:

- Legislation
- Protection
- Accessibility
- Transformation
- Environmental Education
- Added Value

or you can find the information you need by choosing one of the countries. The methodology for the creation of shared green spaces and implementation procedures is also ready and available in all partners' languages.

▪ [Online Training Kit](#)

The training kit, available in English, Greek, Italian, Lithuanian, Portuguese, and Spanish, addresses the training needs of adult educators, aiming at improving their professional competences on leading environmental educational projects, through transformation of shared spaces into green accessible areas, by communities.

▪ [Manual on how to create multisensory gardens](#)

The manual is addressing adult educators and educational centres, and it gives instructions and guidelines for the required processes, materials, and activities, for the creation of accessible multisensory gardens, especially to people with disabilities or special needs. The manual is available in English, Lithuanian, Spanish, Portuguese, Italian and Greek.

- **Recommendations for organizing one-day events for the creation of multisensory gardens accessible to people with special needs**

This document offers recommendations, to all those interested in how to organize and implement one-day events for presenting ways to create and co-create multisensory inclusive and accessible gardens.

***Thank you all for following our steps
towards implementation of our project!***
